AMANA
TAKAFUL INSURANCE
LIFE

CELEBRATING 25 YEARS OF PROTECTION

14th November 2026

Ms. Nilupa Perera
Chief Regulatory Officer
Colombo Stock Exchange
4-01, West Block
World Trade Centre
Echelon Square
Colombo 1.

Dear Madam,

AMANA TAKAFUL LIFE PLC – PB 5202 PQ
RECTIFICATION OF ERROR IN THE INTERIM FINANCIAL OF THE COMPANY FOR PERIOD ENDED 30TH SEPTEMBER 2026

We write with reference to the Interim financial statements for the period ended 30th September 2026, submitted to the Colombo Stock Exchange on 12th November 2026.

Kindly note due to an oversight, the figures for the three months ended 30th June 2025 were inadvertently presented in the Statement of Profit or Loss and Other Comprehensive Income in place of those for the three months ended 30th September 2025.

The errors have now been rectified and a copy of the revised statement of profit or loss and other comprehensive income for the three months ended 30th September 2026 is attached herewith for your perusal.

We sincerely regret the inconvenience caused in this regard.

Yours faithfully,

.....
Nilushan Somarathna
Chief Financial Officer

Amana Takaful Life PLC

Interim Financial Statements

30 September 2026

The above long term insurance (family takaful) statement of financial position is to be read in conjunction with the Company statement of financial position.

NOTES TO THE FINANCIAL STATEMENTS

1. The interim financial statements for the nine months ended 30 September 2026 are provisional and unaudited.

2. The interim financial statements of the company for the 9 months ended 30 September 2026 have been prepared in accordance with Sri Lanka Accounting Standard LKAS 34 - Interim Financial Reporting and comply with the requirements of the Companies Act No. 7 of 2007 and Regulation of Insurance Industry Act No. 43 of 2000 and subsequent amendments thereto.

The same accounting policies and methods of computation as stated in the audited financial statements 2025 have been followed in preparation of these interim financial statements. Comparative information has been re-valued/re-classified where necessary, to confirm to the current period recognition, measurement and presentation.

In accordance with LKAS 34.19, these interim financial statements do not comply fully with Sri Lanka Accounting Standards (SLFRSs) as the Company has elected to apply the Statement of Alternative Tratment (SoAT) issued by the Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka) in respect of the initial adoption of SLFRS 17 - Insurance Contracts and SLFRS 9 - Financial Instruments.

Accordingly, these interim financial statements are prepared on the alternative basis as described below.

2.1 Application of Statement of Alternative Treatment (SoAT) – Q3 Interim Financial Reporting

SLFRS 17 – Insurance Contracts is effective for annual reporting periods beginning on or after 1 January 2026. However, in accordance with the Statement of Alternative Treatment (SoAT) and the subsequent letter dated 28 October 2026 issued by the Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka), insurers have been granted the option to prepare interim financial statements for the first three quarters of 2026 by applying SLFRS 4 – Insurance Contracts, in response to the implementation challenges faced by the insurance industry provided that the expected impact of SLFRS 17 and SLFRS 9 is adequately disclosed.

The Company has elected to apply this relief for the interim financial statements for the nine months ended 30 September 2026.

Accordingly, for this interim period:

• Insurance contracts continue to be recognised, measured, and presented in accordance with SLFRS 4 - Insurance Contracts.
• SLFRS 9 - Financial Instruments has not been applied, consistent with the SoAT requirement that SLFRS 9 shall not be applied during interim periods where SLFRS 4 is continued.

CA Sri Lanka has not yet decided the reporting basis for the fourth quarter or for the annual financial statements for the year ending 31st December 2026.

2.1.1. Progress of SLFRS 17 and SLFRS 9 Implementation

The Company has made substantive progress during the three quarters of the financial year towards full implementation of SLFRS 17 and SLFRS 9, including:

• Completion of major actuarial model builds for insurance contract measurement
• Refinement of discount rate methodologies and risk adjustment frameworks
• Strengthening of governance, controls, and data validation processes

The Company is currently in the process of validating its SLFRS 17 results and determining the fair values of transactions relating to the opening balance.

2.1.2. Expected Impact of SLFRS 17 and SLFRS 9

The adoption of these standards are expected to have a material impact on the Company's financial position and financial performance. The expected impact by area is summarised below.

Area	Expected Impact
Financial Assets – SLFRS 9	Classification and measurement: Financial assets currently classified under LKAS 39 as held-to-maturity, loans and receivables, available-for-sale and fair value through profit or loss will be reclassified as measured at amortised cost, fair value through other comprehensive income (FVOCI) or fair value through profit or loss (FVTPL). The classification depends on (i) the business model for managing each portfolio, assessed together with the asset-liability management of the related takaful liabilities, and (ii) whether contractual cash flows are solely payments of principal and profit (SPPI). Shari'ah-compliant instruments (e.g. Sukuk, Mudarabah and Wakalah investments) will be assessed individually for SPPI; instruments whose returns depend on the performance of underlying assets are likely to be measured at FVTPL. Equity investments will be measured at FVTPL unless the irrevocable FVOCI election is made, in which case fair value gains and losses will not be reclassified to profit or loss on disposal. Impairment: The LKAS 39 incurred-loss model will be replaced by a forward-looking expected credit loss (ECL) model using a three-stage approach (12-month ECL for Stage 1; lifetime ECL for Stages 2 and 3, based on significant increase in credit risk) and probability-weighted macroeconomic scenarios. This is expected to bring forward the recognition of impairment, particularly on placements with licensed finance companies and on corporate debt instruments. Interaction with SLFRS 17: Takaful and retakaful receivables, which are currently presented as financial assets and assessed for impairment under LKAS 39, will form part of takaful and retakaful contract balances under SLFRS 17 and will therefore fall outside SLFRS 9. Transition: SLFRS 9 will be applied retrospectively. The cumulative effect will be recognised in opening retained earnings and other components of equity at that date, without restating comparatives except where the classification overlay in SLFRS 17 is applied.
Insurance Contract Liabilities	Currently, under SLFRS 4, family takaful liabilities are valued by the Appointed Actuary in line with the IRCSL valuation basis and are subject to a liability adequacy test. Under SLFRS 17, contracts will be aggregated into portfolios and divided into annual cohorts, which are grouped by profitability at initial recognition (onerous, no significant possibility of becoming onerous, and remaining). Each group will be measured as the total of: (a) fulfilment cash flows, being the probability-weighted present value of future cash flows within the contract boundary, discounted at current rates that reflect the characteristics and liquidity of the liabilities; (b) an explicit risk adjustment for non-financial risk; and (c) a Contractual Service Margin (CSM) representing unearned profit, which will be released to profit or loss as takaful contract services are provided, based on coverage units. The General Measurement Model is expected to apply to long-term family takaful contracts. The Variable Fee Approach will apply to contracts with direct participation features (e.g. investment-linked plans where participants share in the returns of a clearly identified pool of underlying items), where they meet the eligibility criteria. The Premium Allocation Approach (PAA) is expected to apply to group family takaful contracts with a coverage period of one year or less. Investment components (e.g. maturity and surrender benefits) will be excluded from takaful revenue and takaful service expenses.
Equity	SLFRS 17 transition: SLFRS 17 will be applied retrospectively from the transition date. The Fair Value Approach is expected to be used; this is expected for all cohorts of long-term family takaful contracts. On transition, the following will be recognised in opening retained earnings, net of deferred tax: (i) the derecognition of SLFRS 4 balances (including takaful contract liabilities, unearned contribution reserves, deferred acquisition costs, and takaful and retakaful receivables and payables); (ii) the recognition of SLFRS 17 takaful and retakaful contract assets and liabilities, including the CSM and risk adjustment at transition. SLFRS 9 transition: The remeasurement arising from reclassification and ECL at the transaction date will be recognised in opening retained earnings. The available-for-sale reserve will be reclassified to the FVOCI reserve or to retained earnings, as appropriate.
Takaful Revenue and Profit or Loss	Takaful revenue will no longer correspond to gross written contributions. Instead, it will reflect the services provided in the period: the release of expected claims and expenses, the change in the risk adjustment, the release of CSM and the allocation of acquisition cash flows. Investment components will be excluded. Profit or loss will be presented as a takaful service result, separately from net takaful finance income or expense and investment income. Only directly attributable expenses will be included in takaful service expenses; other expenses will be presented as other operating expenses. Losses on onerous groups will be recognised immediately. Changes in estimates relating to future service will adjust the CSM rather than profit or loss, which reduces volatility from assumption changes. Volatility may still arise from experience variances and from changes in discount rates and financial assumptions, depending on the OCI policy election and how closely assets and liabilities are matched.

2.2 Accounting Policy Choice for Interim Reporting under SLFRS 17

2.2.1. Comparative Information

Comparative information presented in these interim financial statements has been prepared in accordance with SLFRS 4 - Insurance Contracts and LKAS 39 - Financial Instruments and has not been restated for the effects of SLFRS 17 or SLFRS 9.

2.2.2. Interim Accounting Policy Change Under SLFRS 17

In accordance with SLFRS 17 and LKAS 34, an accounting policy choice is required regarding whether estimates in interim periods are updated on a

2.3 Motor Vehicles were revalued in 2024 as per the company policy to revalue them once in every three years.

3. Right-of-use lease asset

The Company as a lessee has applied SLFRS 16 as initial application with effect from 01st January 2019 using the modified retrospective approach and therefore the comparative information has not been restated and continues to be reported under LKAS 17.

At inception of a contract, the company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the company assesses whether:

– the contract involves the use of an identified asset

– the company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and

– the company has the right to direct the use of the asset

The company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use assets of the company consist of a vehicle taken on lease which were previously recognised as finance leases under LKAS 17.

3.1 Right-of-use lease asset

	Unaudited as at 30.09.2026		Audited 31.12.2025 Rs.
	Property	Total	
Opening right-of-use lease asset as at 1st January	53,877,004	53,877,004	35,619,380
Elimination	-	-	(9,295,663)
Addition	8,093,034	8,093,034	42,310,126
Net depreciation for the period	(12,131,595)	(12,131,595)	(14,756,839)
Closing right-of-use lease asset as at 30 September 2026	**49,838,443**	**49,838,443**	**53,877,004**

3.2 Lease liabilities (lease creditors)

The lease liabilities are initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the Ijarah rate implicit in the lease or, if that rate can not be readily determined, the company's incremental borrowing rate. The movement of lease creditor for the period is as follows,

	Unaudited as at 30.09.2026		Audited 31.12.2025 Rs.
	Property	Total	
Opening lease creditor as at 1st January	57,878,932	57,878,932	37,693,000
Elimination			(9,835,305)
Addition	7,392,808	7,392,808	42,310,126
Ijarah expense recognised in profit or loss	3,460,798	3,460,798	4,419,214
Settlement through lease payment	(14,123,953)	(14,123,953)	(16,708,104)
Closing lease liabilities as at 30 September 2026	**54,608,584**	**54,608,584**	**57,878,932**
