INTERIM CONDENSED FINANCIAL STATEMENTS,
SIX MONTHS ENDED 30 SEPTEMBER 2026

RUKMALE W
RUKMA

SUMMARY OF KEY OPERATIONAL AND FINANCIAL HIGHLIGHTS FOR THE SECOND QUARTER OF THE FINANCIAL YEAR 2026/27 (FY26/27)

Company reported revenue of Rs. 5.4 Bn for the first half of FY26/27, marking a 38% year-on-year increase from Rs. 3.9 Bn in the corresponding period of the previous financial year. Growth was driven by strong underlying fundamentals, with average monthly unique driver earners and average monthly unique consumers reaching all-time highs, despite fuel supply constraints affecting the first quarter.

Activity levels expanded across all product verticals, with total platform movements increasing by 39% year-on-year in the first half of FY26/27. Gross Transaction Value (GTV), representing the total value of all facilitated trips and deliveries, mirrored this growth by rising 43% to Rs. 53.8 Bn from Rs. 37.6 Bn in the corresponding period of the prior year. This momentum translated to total earnings of Rs. 46.7 Bn generated for independent drivers and merchants on the platform during the period.

Supported by resilient top-line growth, operating leverage and continued cost discipline, the Company recorded a 44% increase in Operating Profit to Rs. 1.9 Bn for the first half of FY26/27, up from Rs. 1.3 Bn in the corresponding period of the prior year. Net Profit increased 49% year-on-year to Rs. 1.4 Bn, compared to Rs. 950 Mn in the prior year period, with Earnings Per Share (EPS) rising to Rs. 4.24 from Rs. 2.85.

Revenue for the second quarter of FY26/27 reached Rs. 2.9 Bn, reflecting 37% year-on-year growth compared to Rs. 2.1 Bn recorded in the second quarter of the previous financial year, and a sequential 14% quarter-on-quarter expansion over the first quarter, which was partially impacted by the fuel supply constraints. Demand was underpinned by average monthly unique consumers reaching 2.1 Mn in the second quarter of FY26/27, representing an increase of 38% year-on-year and 10% quarter-on-quarter. Performance was further supported by stronger supply-side dynamics, with average monthly unique driver earners expanding 58% year-on-year.

During the second quarter of FY26/27, the platform facilitated a GTV of Rs. 28.5 Bn, with 87% representing direct earnings passed through to independent drivers and merchants, underscoring the platform's capacity to create sustained income opportunities for independent earners.

¹ Gross Transaction Value (GTV) is a non-SLFRS operational metric defined as the aggregate monetary value of trips and deliveries processed through the platform. GTV does not represent statutory Revenue under SLFRS 15 (Revenue from Contracts with Customers). Revenue reported in the Statement of Profit or Loss reflects only the net platform fees and service fees earned by the Company for the service it provides.

Total platform movements during the second quarter of FY26/FY27 grew 37% year-on-year and 18% quarter-on-quarter, reflecting a strong rebound from the softer first quarter, which was affected by fuel supply constraints and quota-related disruption to driver availability.

The Company recorded a 48% year-on-year increase and 25% quarter-on-quarter increase in Operating Profit, which reached Rs. 1,043 Mn in the second quarter of FY26/27. The improvement was driven primarily by higher transaction volumes and enhanced operating leverage. This carried through to the bottom line, with Net Profit after tax increasing 53% year-on-year and 24% quarter-on-quarter to Rs. 784 Mn, marking the highest quarterly profit to date.

Backed by the resilience and strong forward prospects of the business and following another quarter of solid top- and bottom-line growth, the Board of Directors has approved an interim dividend of Rs. 2.75 per share for FY26/27, representing a 65% payout ratio.
